

Club Penguin History

I made this book to tell you about Club Penguin History enjoy!

-Pup2602

2000

July 30

Experimental Penguins was made. This was the start of Club Penguin. It was a white screen where you would chat. Not much, but that was part of how Club Penguin was made.

2003

January

Penguin Chat was made. Not a lot of penguins know the day it was made. It is like Experimental Penguins, but with rooms. There were two more Penguin Chats which were Penguin Chat Foot Ball and Penguin Chat 3.

2001

Penguin Foot Ball Chat was made. This was the longest Penguin Chat ever. It went to 2012! This one had outfits for your penguin and had a room where you could play Soccer.

2005

March 31

This was a test for Club Penguin. The rooms had stuff so it was not a white screen. And, while penguins were having fun, the Club Penguin team was trying to find a name for Club Penguin. At first they called it the Big Update, and they came up with names like: World of Penguin, Penguin World, Land of Penguins. They came up with more names too. Eventually, they came up with Club Penguin.

2005

October 24

The day Club Penguin was made! I do not know a lot more about the launch of Club Penguin.

The next part will be about workers leaving the Club Penguin Team.

2010

October

Rsnail quit working for Club Penguin. He did not login again until October, 2012. I forgot the day. He was one of the makers of Penguin Chat 3, so it was a big deal.

2010

October 29

Screen Hog quit working for Club Penguin. He helped make Penguin Chat 3.

2012

October

Happy77 said she would leave, and Billybob said the same. Happy77 quit on October 22. Billybob left on February 1. Billybob and Happy77 joined when Penguin Chat 3 was made.

There was one big update that I did not put in, which was when Disney bought Club Penguin. I do not know the day month or year they bought Club Penguin, that's I did not put it in the main part.
